

Horizon Blue Cross Blue Shield of New Jersey

## Effective as of July 15, 2012

New Jersey Public Law, 2011, C. 188, requires health insurance carriers to cover oral anticancer medications “on a basis no less favorable than intravenous anticancer medications.” That means coverage for specific prescribed anticancer medications is not subject to any prior authorizations, dollar limitations, deductibles, copayments or coinsurance that do not apply to intravenously administered or injected anticancer medications.

Orally administered anticancer medicines are prescription medicines that: (a) are used to slow or kill the growth of cancerous cells, and (b) are given orally (by mouth). Such medicines do not include those that:

- Are prescribed to maintain red or white cell counts.
- Treat nausea.
- Are prescribed to support the anticancer prescription medicines.

This list includes the medicines that are approved under this mandate.

| Brand Name       | Generic Name                  | Generic Availability? | Brand Name | Generic Name               | Generic Availability? |
|------------------|-------------------------------|-----------------------|------------|----------------------------|-----------------------|
| Afinitor         | everolimus                    | N                     | Farydak    | panobinostat               | N                     |
| Afinitor Disperz | everolimus                    | N                     | Femara     | letrozole                  | Y                     |
